Issue with a used Freightliner M2, Mercedes Engine MBE900, 280 HP with EGR and an Eaton 9 speed trasnmission. I recently acquired this truck, tandem axle as it is with only 230,000 Miles. It looks very nice and practically has a long life ahead but, I do not feel there is enough power on the engine. I feel acceleration is very low, since on the road I can press hard pedal to the bottom and it ...

Mercedes air compressor removal on a Freightliner

I have a 2005 Freightliner Columbia with Mercedes MBE 4000 engine. This truck has been nothing but problems from day one. At 290K the coolant started to leak from head gaskets, so the dealer replaced liners, pistons and head gaskets under warranty. Now at 415K, just 15K out of warranty, the same problem is happening.

Anyone running Mercedes engines? | Turbo Diesel Register

Engine is light, and the displacement is bigger than other engines of different makes with similar weights. Like was said, make sure recall updates were done. They tend to break down, but so does anything mechanical. I had one go bad and drove it home on a local run. Check engine light didn't come on. Fluids were ok, but something went in the head.
