The Boeing 737-800 was launched in September 1994, earned FAA certification in March 1998 and first flew with Germany's Hapag-Lloyd that same year. It became the biggest-selling member of the 737NG family and has been continually enhanced, for example with the option of blended winglets. The aircraft's cabin also has had multiple upgrades.

## **The Boeing 737 Technical Site**

The majority of maintenance manuals are customised for a specific fleet, i.e. specific to a particular airline. That way Boeing only provides information that is applicable to those aircraft and even with a given manual you need to be able to filter on applicability to ensure that specific maintenance information is applicable to a specific aircraft.
