However, since it gets downloaded in a zip file you need a special app or use your computer to unzip the zip folder.

### Cardiac Pacing Defibrillation And Resynchronization

{{configCtrl2.info.metaDescription}} INTRODUCTION. Ventricular fibrillation (VF) is a common cause of sudden cardiac death (SCD) and is sometimes preceded by monomorphic or polymorphic ventricular tachycardia (VT).

### The Evaluation and Management of Electrical Storm

As the world's only subcutaneous implantable cardioverter defibrillator, the EMBLEM S-ICD System protects patients from sudden cardiac arrest (SCA), while leaving their heart untouched.

### REFERENCES - UpToDate

Electrical storm is a life-threatening syndrome that involves recurrent episodes of ventricular arrhythmias. It is defined as 3 or more sustained episodes of ventricular tachycardia (VT), ventricular fibrillation (VF), or appropriate implantable cardioverter-defibrillator (ICD) shocks during a 24-hour period. 1 Sustained VT lasts 30 seconds, involves hemodynamic compromise, or requires ...
