Globalization Has Created a Chinese Monster - Foreign Policy

During the early years of communist rule in China and the People's Republic of China, mass starvation, malnutrition, and disease were common. In addition, there was an idea for a highly planned economy at this time and the rural population was divided into 50,000 communes, each of which was responsible for farming and running different industries and schools.

Globalization | National Geographic Society

The rise of domestic supply chains in China and other emerging economies has also decreased global trade intensity. China's rapid growth has made it a major part of virtually every goods-producing global value chain. Overall, it now accounts for 20 percent of global gross output, up from just 4 percent in 1995.
