The semicolon or semi-colon; is a symbol commonly used as orthographic punctuation. In the English language, a semicolon is most commonly used to link (in a single sentence) two independent clauses that are closely related in thought. When a semicolon joins two or more ideas in one sentence, those ideas are then given equal rank. Semicolons can also be used in place of commas to separate the ...

The underscore is used as a diacritic mark, "combining low line",  $\_$ , in some languages of Egypt, some languages using the Rapidolanguage orthography in Gabon, Izere in Nigeria, and indigenous languages of the Americas such as Shoshoni and Kiowa.. The combining diacritic,  $\_$ , (Macron below) is similar to the combining low line but its mark is shorter.
