They reflect the stories we tell ourselves, and the stories others tell about us. A course of treatment from a bodywork therapist can affect us in unexpected ways. What starts as a visit for a sore shoulder or a tendency to headaches could become a journey into the heart of our emotional life and perhaps the depths of early experience.

Every body tells a story. Do you show your tattoos at work?

Your body tells a story... Physical, emotional, even traumatic stories. You might not even remember that horrible dentist appointment you had when you were 8 years old but your body just might! When I ask a client for their medical history, they often write only a few things down.
