In accounting, the Inventory turnover is a measure of the number of times inventory is sold or used in a time period such as a year. It is calculated to see if a business has an excessive inventory in comparison to its sales level. The equation for inventory turnover equals the cost of goods sold divided by the average inventory. Inventory turnover is also known as inventory turns, merchandise ...

Manias, Panics, and Crashes, Fifth Edition is an engaging and entertaining account of the way that mismanagement of money and credit has led to financial explosions over the centuries. Covering such topics as the history and anatomy of crises, speculative manias, and the lender of last resort, this book puts the turbulence of the financial world in perspective.
