A new era of open-banking APIs could also see future innovations in financial services shift from today's largely western bias to regions of the world such as Asia and Africa. Johnson cites the example of Africa, where Innotribe expanded its Startup Challenge two years ago.

Financial innovation and the financial crisis of 2007 and ...

Innovation is a double-edged sword: the right kind of innovation and favourable conditions that may spur banks to invest in new technologies would help the financial system fulfil its functions and, as a consequence, deliver growth; but too much innovation or innovation that is not properly used, can have serious consequences for the overall economy (Stiglitz, 2010; Beck et al., 2012).
