Speech Act Theory 101: Locution, Illocution, and More ...

In linguistics, a speech act is an utterance defined in terms of a speaker's intention and the effect it has on a listener. Essentially, it is the action that the speaker hopes to provoke in his or her audience. Speech acts might be requests, warnings, promises, apologies, greetings, or any number of declarations.

Speech Acts: Performatives vs. Constatives

In the philosophy of language and speech acts theory, performative utterances are sentences which not only describe a given reality, but also change the social reality they are describing. In his 1955 William James lecture series, which were later published under the title *How to Do Things with Words*, J. L. Austin argued against a positivist philosophical claim that the utterances always "describe" or "constate" something and are thus always true or false. After mentioning several examples of se

Speech acts - Stanford University

COMMISSIVE UTTERANCES Commissive are utterances in which the speaker binds himself to perform (or refrain from doing) some act at a later time. In other words, They are prospective and concerned with the speaker's commitment to future action (Kreidler, 1998:192).

Today is Inauguration Day, when Donald J. Trump becomes the 45th president of the United States. This has me thinking about speech act theory, the difference between a locution and an illocution, appropriateness conditions, and performative speech acts, among other things.

Performative utterance - Wikipedia

INTRODUCTION The speech act theory considers language as a sort of action rather than a medium to convey and express. The contemporary Speech act theory developed by J. L. Austin a British philosopher of languages, he introduced this theory in 1975 in his well-known book of 'How do things with words'. Later John
