Research: functional-clothing-design

Functional Clothing Design is a book about how and why clothing works. This interdisciplinary text introduces new ways to look at the human body, the environment and clothing and to explore the relationships between them by looking at the ways clothing achieves goals such as protecting the body, increasing health and safety, improving a workers efficiency on the job or increasing body function.

Bloomsbury Fashion Central

It was taught by Susan Watkins, who wrote Clothing: The Portable Environment (unfortunately out of print), and Lucy Dunne, a masters student in Apparel Design at Cornell. Susan and Lucy share an interest in functional clothing design and talked about the practical issues of integrating technology into textiles and garments.
