focus on delivering news to the general public or a target public. These include print media (newspapers, newsmagazines), broadcast news (radio and television), and more recently the Internet (online newspapers, news blogs, etc.).

Health Communication in the New Media Landscape

Implement a mental health short course when training journalists. Use mental-health terminology with precision, fairness, and expertise. As individuals who consume copious amounts of mass media and engage on social media routinely, the best thing that we can do is to stop using words like “crazy” and “deranged” in a derogatory or flippant fashion.

Health Communication in the New Media Landscape - Walmart.com

Social media sites and apps allow adolescents to make new friends, exchange ideas and pictures, develop new interests and experiment with new forms of self-expression. When youth use them, they can learn basic social and technical skills that are important for functioning in day-to-day society.

Health and the New Media | Technologies Transforming ...

Public health campaigners are increasingly focussing on models of media engagement due to the considerable and growing amount of evidence that media campaigns can change population health behaviours. New forms of media (that is not just the 'traditional' press and television) can be used to reach large audiences quickly and relatively cheaply with and with repeated exposure to desirable public health messages.

Health Communication in the New Media Landscape ...

More generally, however, fear is exploited more subtly and the media strategies that health related industries (pharmaceutical, alternative, nutrition, food, etc) have invested in appears to pay off for them as the title from another BMJ article reveals: Who needs health care—the well or the sick? (Volume 330, April 23, 2005, p.954).

Health and the New Media: Technologies Transforming ...

*The "Overview" juxtaposes characteristics of the new media (interactive, connected, and user-driven) with the three criteria for health care improvement: increased access, improved quality, and cost management. It offers a New Media and Health Care matrix of criteria for building and evaluating emerging health care systems.

New Media | SAG-AFTRA

In this 'new media age' the screen has replaced the book as the dominant medium of communication. This dramatic change has made image, rather than writing, the centre of communication. In this groundbreaking book, Gunther Kress considers the effects of a revolution that has radically altered the relationship between writing and the book. Taking into account social, economic, communication and ...
