Install Windows 10 from the installation media like you would any other operating system. Restart your computer with the USB drive or DVD inserted, and boot from that device. This may require you change a setting in the BIOS , access a boot menu, or use the "Use a device" option in the advanced startup options on a modern Windows 8 or 10 device that includes UEFI firmware instead of the traditional BIOS.

How to Install a Home Elevator | This Old House

Windows do a lot: help establish a home's visual character, let in light and air, and frame views from inside. But if not installed correctly, they can become unwelcome avenues for water. "Rot around windows, even in relatively new houses, is one of the biggest problems I see," says This Old House general contractor Tom Silva.
