Space colonization (also called space settlement or extraterrestrial colonization) is the hypothetical permanent habitation and exploitation of natural resources from outside planet Earth.. As such it is a form of human presence in space, beyond human spaceflight or operating space outposts.. Many arguments have been made for and against space colonization.

Space colonization - Wikipedia

Because of his public leadership of the philosophe party in eighteenth-century France, Voltaire stands today as the iconic example of the French Enlightenment philosopher. Denis Diderot (1713–1784) is often seen as Voltaire's second in that role since it was around both men that the Enlightenment philosophes rallied as a movement after 1750. The epochal project, which Diderot jointly ...
