International B414 Engine

The B414 was a mid-sized agricultural tractor developed by International Harvester. The company manufactured and sold the tractor between 1961 and 1966. It was available with either a gasoline or a diesel engine. In 1967, the B414's original selling price was approximately \$2,900. International Harvester was one ...

Parts for International B414 tractors | All States Ag Parts

The British-built International B414 diesel utility tractor was introduced in 1961 as the replacement for the B275 (although the older model continued in production until 1968). The B414 used the same basic 4-cylinder diesel engine design but a $\frac{1}{4}$ " larger bore increased engine displacement from 143 ci to 154 ci.
