How to Choose the Right Kitchen Island Lights | Home ...
Kitchen Lighting. Go for an accent piece. When choosing a fixture, instead of just thinking of it as a source of light, think about it as a design element. Look for kitchen lighting options that can serve as an accent piece for your space. Fixtures with intricate designs, that use unique materials or have a non-traditional shape are all in-line...

Kitchen Lighting Tips - The Family Handyman
For an average kitchen island of 3 by 6 feet (18 square feet), you would need lighting that delivers 540 Lumens of light. A long island of 3 by 12 feet (36 square feet) needs twice the number of lumens - 1,080 lumens. Of course the number doesn't have to be exact, just stick close to it.

The 8 Best Kitchen Lights of 2020
Chandelier light fixtures and pendants for the kitchen come in a variety of sizes and shapes too, ranging from smaller designs for the breakfast nook to robust pieces to gracefully hang over the dining table. If you have an island in your space, track lighting and monorail systems can add some much needed style over an otherwise flat, uninteresting surface.
