## **Liver problems - Symptoms and causes - Mayo Clinic**

Primary sclerosing cholangitis is a long-term progressive disease of the liver and gallbladder characterized by inflammation and scarring of the bile ducts which normally allow bile to drain from the gallbladder. Affected individuals may have no symptoms or may experience signs and symptoms of liver disease such as yellow discoloration of the skin and eyes, itching, and abdominal pain. The bile duct scarring which occurs in PSC narrows the ducts of the biliary tree and impedes the flow of bile t
