UpToDate

Recurrent miscarriages (see "Pregnancy in women with systemic lupus erythematosus") We also ask about exposure to medications associated with drug-induced lupus (eg, hydralazine and others) (see "Drug-induced lupus"). A complete physical examination is indicated, since any organ system can be involved in SLE.

Lichen simplex chronicus - UpToDate

Lupus nephritis — Women with active lupus nephritis should be encouraged to delay pregnancy until the disease is inactive for at least six months to optimize maternal outcomes. As discussed above, a previous history of lupus nephritis or active lupus nephritis during pregnancy is associated with higher rates of maternal and fetal complications.
