Management Control Systems - Robert Newton Anthony, Vijay ...

A Management Control System (MCS) is a system. A system can be described as a series of steps or phases consisting of an input phase, a processing phase, and an output phase. A control system adds measurement, analysis and reporting phases to the system. Accounting methods are often implemented and evaluated as part of a management control system.

the firm's management systems. In this view, management control systems can affect the development of strategies. When firms operate in industry contexts where environmental changes are predictable, they can use a formal and rational process to develop the strategy first and then design management control systems to execute that strategy.
