### **P0340 & P0650 Codes | The Nissan Club**

So, I was driving home from the Marine Corps Ball in San Francisco. On the freeway, cruising at 70 mph peacefully and was about 80% home. Suddenly I heard a weird ticking sound then bam loss of power. Puled over and couldn't start my engine after several attempts with clearing the codes. Battery is Okay, however code p0345 and p0340 popped up.

### **DTC P0340 Camshaft Position Sensor "A" Circuit DTC P0341 ...**

The first thing we did is go to walmart and buy a OBDII reader. Upon attachment it showed various codes not all of which made sense. So we erased the DTC's and restarted the engine. P0345 (cam position sensor bank 2) was the first code to show up. After reading on this forum I unplugged the CPS and fired up the truck and it ran smooth again.
