### **A Military Revolution or Evolution? | Weapons and Warfare**

The early modern warfare is associated with the start of the widespread use of gunpowder and the development of suitable weapons to use the explosive, including artillery and firearms; for this reason the era is also referred to as the age of gunpowder warfare (a concept introduced by Michael Roberts in the 1950s). This entire period is contained within the Age of Sail, which characteristic ...

Spanish Tercios The Spanish tercios ("third"), a military formation composed of pikemen, swordsmen, and arquebusiers (musketeers) of 3,000 troops, was a formidable force in early modern European warfare. This infantry formation developed in the Italian Wars (1494-1559) as a response to counter cavalry forces. Pikemen, a Swiss development in infantry, staved off cavalry forces with...

The Pentagon is agog with discussions of a revolution in military affairs, the technologically driven transformation of warfare that some believe is now under way. This volume deals with a much earlier period, the mid-sixteenth through the mid-seventeenth centuries, from whence the term "military revolution" originates.

### **Modern warfare, intelligence and deterrence**

What happened in the wake of that top-level proclamation was a vigorous discussion among Chinese military writers parsing out the transformation of warfare by information and modern information technology. That debate and the dialectical back-and-forth ultimately formed the foundations of Chinese informationized warfare theory and doctrine.

### **Early modern warfare - Wikipedia**

Medieval warfare is the European warfare of the Middle Ages. Technological, cultural, and social developments had forced a severe transformation in the character of warfare from antiquity, changing military tactics and the role of cavalry and artillery (see military history). In terms of fortification, the Middle Ages saw the emergence of the castle in Europe, which then spread to Western Asia
