the different ship types (for example bulk carrier, container ship, oil tanker, cruise ship, Platform supply vessel, etc), including s a basic knowledgehip recognition, a basic understanding of nautical terms, ship structure and naval architecture and cargo operations, specific to the vessel the seafarer is working on.

Seamanship - Wikipedia

The bridge is a room or platform of a ship from which the ship can be commanded. When a ship is under way, the bridge is manned by an officer of the watch aided usually by an able seaman acting as a lookout. During critical maneuvers the captain will be on the bridge, often supported by an officer of the watch, an able seaman on the wheel and sometimes a pilot, if required.
