...

The studies extend previous research by providing stronger theoretical underpinnings and using longitudinal databases that can separate in time the firms' growth from its presumed causes. They also break new ground by examining different modes of growth, such as sales growth vs. employment growth, and organic growth vs. acquisition-based expansion.

Index : 01 New Perspectives on Firm Growth

Evans (1987) evaluated the relationship between firm growth, size, and age for 100 manufacturing enterprises, and determined that firm growth, the variability of firm growth, and the probability that a firm will fail decreases as the firm ages. Evans also judged that firm growth decreases at a diminishing rate with firm size.
