## **Academic Writing-Observation Papers - SFU Library**

A paper from Michael Angrosino, citing research from Oswald Werner and Mark Schoepfle, identifies three different kinds of observational research processes. Descriptive observation: The researcher observes and notes down everything that occurs. This can produce a lot of data — some of which may be relevant and some irrelevant to your study. An example of a descriptive observation is noting down the sounds going on in the background when a user testing session is being held.
