The words of the title derive from a famous passage in a letter by scientist Isaac Newton. "If I have seen further," Newton wrote, "it is by standing upon the shoulders of giants." Theoretical physicist Stephen Hawking, himself a renowned far-sighted thinker, has compiled an anthology of the seven great classics in astronomy and physics.

On the Shoulders of Giants (2011) - IMDb
On the Shoulders of Giants is a collection of essays based on lectures Eco famously delivered at the Milanesiana Festival in Milan over the last fifteen years of his life. Previously unpublished, the essays explore themes he returned to again and again in his writing: the roots of Western culture and the origin of language, the nature of beauty and ugliness, the potency of conspiracies, the lure of mysteries, and the imperfections of art.

On the Shoulders of Giants: The Great Works of Physics and ...
What's the origin of the phrase "Standing on the shoulders of giants"? The best-known use of this phrase was by Isaac Newton in a letter to his rival Robert Hooke, in 1676: "What Descartes did was a good step. You have added much several ways, and especially in taking the colours of thin plates into philosophical consideration.

Isaac Newton - If I have seen further than others, it is...
Yet for all of its heavy psychedelic influence, Standing on the Shoulder of Giants is really a self-consciously mature departure from the group's usual ebullience, a deliberately mellow, midtempo album spiked with hints of big beat and electronica to prove that they're with it.

On The Shoulders Of Giants
The metaphor of dwarfs standing on the shoulders of giants (Latin: nanos gigantum humeris insidentes) expresses the meaning of "discovering truth by building on previous discoveries". This concept has been traced to the 12th century, attributed to Bernard of Chartres.

Standing on the Shoulders of Giants: The Story Behind ...
The phrase is most famous as an expression of Newton's but he was using a metaphor which in its earliest known form was attributed to Bernard of Chartres by John of Salisbury: Bernard of Chartres used to say that we [the Moderns] are like dwarves perched on the shoulders of giants [the Ancients], and thus we are able to see more and farther than the latter. And this is not at all because of the acuteness of our sight or the stature of our body, but because we are carried aloft and elevated ...
