### Organic Structure Analysis Crews

Organic Structure Analysis is an ideal text for upper-level undergraduate and first-year graduate courses in organic spectroscopy. It provides students with the background necessary to effectively apply spectroscopic data in establishing features of molecular structure. Unique in its coverage, it is the only text that emphasizes strategies, interpretation, modern techniques, and problem solving.

### Organic Structure Analysis by Phillip Crews, Jaime ...

Organic Spectroscopy is a standard chemistry course offered each year to large numbers of seniors and beginning graduate students. They learn to efficiently solve problems of molecular structure determination by an integrated use of four primary spectroscopic methods; NMR; mass spectrometry; infrared and ultraviolet. The problem solving approach used in the second edition follows the actual ...
