"The Extended Mind is a thrilling account of the true nature of the human mind. Annie Murphy Paul makes the provocative argument that the mind is more than just a brain trapped inside a skull—and shows how our best thinking occurs outside the brain, in the ways that we interact with the larger world and the larger world interacts with us.

The Crimes of Christopher Columbus

Dostoevsky's most revolutionary novel, Notes from Underground marks the dividing line between nineteenth- and twentieth-century fiction, and between the visions of self each century embodied. One of the most remarkable characters in literature, the unnamed narrator is a former official who has defiantly withdrawn into an underground existence.

This chapter outlines one Christian theological account of human flourishing, with its roots in the Reformed Protestant tradition, but also drawing on other Christian traditions and disciplinary perspectives. Human flourishing is understood as the fulfillment of God's good purposes for human creatures and (following the Reformed theologian Karl Barth) includes the dimensions of relationship ...

George Lakoff

The following answers to this fundamental question each win a random book. Life is the aspect of existence that processes, acts, reacts, evaluates, and evolves through growth (reproduction and metabolism). The crucial difference between life and non-life (or non-living things) is that life uses ...

Presocratics | Internet Encyclopedia of Philosophy

Metaethics. Metaethics is a branch of analytic philosophy that explores the status, foundations, and scope of moral values, properties, and words. Whereas the fields of applied ethics and normative theory focus on what is moral, metaethics focuses on what morality itself is. Just as two people may disagree about the ethics of, for example, physician-assisted suicide, while nonetheless agreeing ...

Human Flourishing: A Christian Theological Perspective ...

The multiculturalists are equally unanimous that Columbus, as the prototypical Western white male, carried across the Atlantic racist prejudices against the native peoples. Gary Nash charges that Columbus embodied a peculiar "European quality of arrogance" rooted in irrational hostility to Indians.

Embodied Cognition (Stanford Encyclopedia of Philosophy)

Embodied cognition is the theory that many features of cognition, whether human or otherwise, are shaped by aspects of the entire body of the organism. The features of cognition include high level mental constructs (such as concepts and categories) and performance on various cognitive tasks (such as reasoning or judgment). The aspects of the body include the motor system, the perceptual system ...

Notes from Underground by Fyodor Dostoevsky

The writers had in mind the removal of the stems". "The top of the cap is yellow and the rest is the color of coffee, with the gills of a color between yellow and coffee. They call this mushroom, pitpa "thread-like", the smallest, perhaps 2 horizontal fingers high, with a cap small for the height, growing everywhere in clean earth, often along ...
