The rise and rationalization of the industrial phosphates industry have gone hand in hand with the development and maturation of technologies to purify phosphoric acid. In the 1960s and 70s, driven by the exponential sales growth of the detergent-builder sodium tripolyphosphate, chemical producers raced to develop processes that would provide a suf

In contrast, preparation of more elaborate phosphorus compounds used in chemical catalysis, pharmaceutical, and battery applications requires laborious generation and chlorination of elemental phosphorus. Geeson and Cummins now show that phosphoric acid may also be a practical source of ...

### **Wet process phosphoric acid purification by solvent ...**

Purification of phosphoric acid by reverse osmosis (RO) and nanofiltration (NF) was studied using different commercial membranes of common industrial use. Both techniques represent an interesting alternative in purifying industrial phosphoric acid solutions. RO is a good choice to purify solutions up to a concentration of 2 M.

phosphoric acid Purification of phosphoric acid. The production of higher grade phosphoric acid using fertilizer grade acid is one of Prayon's specialities. The dearsenification and defluorination of the acid for manufacturing products to be used in animal feeds (such as MCP, DCP) can be achieved by sulfurising and steam-stripping fertilizer acid.
