2. Practical ramifications of the altered concept of the causal structure of self-directed neuroplasticity. Clarity is required about the sorts of neuroscientific reasoning that remain coherent, given the structure of modern physics and, contrastingly, the types of assertion that can now be viewed as the residue of a materialistic bias stemming from superseded physics.

Unless you have a really beefy heat pump to do the job 'on the fly', like that Zypko thing does, you need to store the wastewater for a time. Not impossible, but also not really convenient since it may mean a m 3 class insulated tank somewhere (below shower level, likely). The more thorough the design, the more problems and costs pops up.
