Measuring and Managing Radiologist Productivity, Part 1 ...

The RVUs compare the resources required for one service to those required for other services. Relative to the pre-2014 OMFS, the RBRVS tends to provide lower relative values for surgical and other technical procedures and higher relative values for E&M services. Most RVUs will be based on Medicare's RVUs.

RBRVS overview | American Medical Association

Resource-based relative value scale (RBRVS) is a schema used to determine how much money medical providers should be paid. It is partially used by Medicare in the United States and by nearly all health maintenance organizations (HMOs).. RBRVS assigns procedures performed by a physician or other medical provider a relative value which is adjusted by geographic region (so a procedure performed ...
