### **FAS 52 (as issued) - fasb.org**

If you translate additional currencies from the local currency, foreign currency valuation automatically performs a currency translation according to FASB 52 (US GAAP). You can only perform a valuation run once for each valuation area for a specific key date.

### **Foreign Currency Valuation - SAP**

You can carry out the valuation in local currency, (company code currency), or a parallel currency (for example, group currency). You can also use different valuation methods (for example, lowest value principle). In addition to the foreign currency valuation, you can also carry out a currency translation in accordance with FASB 52 (US GAAP).
