Recognizing common end-of-life signs, including pain, decreased appetite, and breathing problems, can help you better manage your loved one's last days.

Signs Of Life In The

Some signs of the end of life can include increased agitation, withdrawal from family and your parent discussing that he's dying -- which will alert you that death is approaching. You can confer with your loved one's physician to provide a non-stressful environment if an increase in agitation becomes noticed.

Signs of Life - why church matters

The seven signs of life are moving, respiration, sensitivity, growth, reproduction, excretion and nutrition. All of these activities are present in living organisms. A non-living object sometimes manifests one or more of these activities but not all of them. All living things, including plants, move.
