The 2012 Biochemistry Exam has a new design feature. While there are 60-items total, the test is divided into a set of 40 items that comprise the Core and an additional 20 items with more advanced concepts tested. This design will allow for two sets of norms to be calculated (which is why the test has two listing here).

### Biochemistry - American Chemical Society

The ACS test is easier than the GRE and has a much smaller scope. In both cases, your best bet is to study your textbook, powerpoints and lecture notes (GRE study guides are awful, for future reference). My best advice: cram, cram, cram. There's no way to store that much info long-term, so just keep it in your head until the exam.
