Superior is the name brand of the mower it has a unique sickle bar . The guards actually move back an forth as well as the knives . I was told it will mow even in wet grass an not clog like like the older styles do . I,m sure a disc would out perform it . But I just have a small place an the cost on these is alot less .

I do not believe I have hit anything like rocks etc. I believe it is some kind of adjustment issue, but I do not know what adjustment needs to be made.
