Textbook Of Prostatitis

Prostatitis is inflammation of the prostate gland. Prostatitis is classified into acute, chronic, asymptomatic inflammatory prostatitis, and chronic pelvic pain syndrome. In the United States, prostatitis is diagnosed in 8% of all urologist visits and 1% of all primary care physician visits for genitourinary symptoms.

Prostatitis - Wikipedia

Although prostatitis is the most common urologic diagnosis in males younger than 50 years and the third most common diagnosis in men older than 50 years (after benign prostatic hyperplasia [BPH] and prostate cancer), acute prostatitis is rare. Acute prostatitis is easier to identify
