Read this excerpt from "The Censors." It's true that on the third day, a fellow worker had his right hand blown off by a letter, but the division chief claimed it was sheer negligence on the victim's part. Juan and the other employees were allowed to go back to their work, though feeling less secure.

In *The Censor's Hand*, Schneider addresses this crucial but long-unasked question. Schneider answers the question by consulting a critical but ignored experience--the law's learning about regulation--and by amassing empirical evidence that is scattered around many literatures. He concludes that IRBs were fundamentally misconceived.

IRBs are the crabgrass of academia—destructive, unwanted, unnecessary, relentlessly expanding. In *The Censor's Hand*, Carl Schneider expertly exposes their incompetence, ignorance, lawlessness, and record of killing more people than they save. He makes me glad I no longer work in a university, subject to IRB oversight.
