Understanding The Differences Between The Engines. This means that a two-stroke 125 cc engine is the same as a 4-stroke 250 cc. In fact, there are very few low cc four-stroke engine dirt bikes on the market. Typically, the higher the cc, the more costly the dirt bike, which means four-strokes can be more expensive.

Two-Stroke vs Four-Stroke Dirt Bikes - A Beginner's Guide ...

The 4 stroke engines produce a smoother, more predictable and controllable power than 2 stroke. Also, they have more low end so you can lug the bike and rely on it's torque without worrying about fouling a spark plug – you have to keep a dirt bike revved for the majority of the time you're on it to prevent fouling plugs.

The Four Stroke Dirt Bike Engine Building Handbook: Paul ...

Four stroke dirt bike engines have four steps: intake, compression, combustion, and exhaust. Instead of firing every single revolution of the crankshaft like the two-stroke engine does, four-stroke engines fire every two revolutions of the crankshaft. A four-stroke engine takes four piston movements to achieve a singular engine cycle.
