History Edit. The Machine was believed to have been built in what was fabled to have been the Tower of Babel or the Etemenanki, with much of the engine itself located underground, below the ancient city of Babylon; however, it is also possible the tower was built after the Machine's dismemberment as a tribute to Marduk and collapsed later during Alexander the Great's conquest of Babylon.

The Infernal Desire Machines of Doctor Hoffman - Wikipedia

A dramatic reframing of our troubled present against a century full of striking historical parallels. In 1881, a small group of Russian revolutionaries calling themselves "terrorists" assassinated Tsar Alexander II in a spectacular bombing attack in St. Petersburg. Far from being psychopathic murderers, these men and women viewed their actions as a just response to tyranny. The violence in ...

Infernal machine - definition of infernal machine by The ...

The Machine of Lum the Mad was an ancient artifact that had several dials and levers. Combinations entered by the users had either very beneficial or absolutely disastrous effects on them. The large complex contraption had over a hundred sockets, dials and levers, each of different sizes and colors. All of the delicate components led to the machine weighing about 5,500 lbs (2490 kg). The ...
