alone in the universe, astrobiologists look to Jupiter, Mars and, closer to home, extreme environments on Earth.

The Search for Life in Space (2016) - IMDb

In field theory ...a psychological field, or “life space,” as the locus of a person’s experiences and needs. The life space becomes increasingly differentiated as experiences accrue. Lewin adapted a branch of geometry known as topology to map the spatial relationships of goals and solutions contained in regions within a life space....

What is LIFE SPACE? definition of LIFE SPACE (Psychology ...

In space, without the pull of gravity, the blood moves to the upper body and head. Water in the body also does the same thing. It makes the astronauts' faces look puffy. The blood and water are fluids in the body. These fluids move from the bottom of the body to the top. ... Excerpted from NASA Life Sciences Data Archive
