The Mechanical Hypothesis In Ancient

Rowan Gavin Paton Menzies (14 August 1937 – 12 April 2020) was a British submarine lieutenant-commander who authored books claiming that the Chinese sailed to America before Columbus. Historians have rejected Menzies' theories and assertions and have categorised his work as pseudohistory. He was best known for his controversial book 1421: The Year China Discovered the World, in which he ...

Gavin Menzies - Wikipedia

This mechanical regulation of β-catenin localization was first identified in the fly 44,45,46,47 and remains to be studied in the context of vertebrate embryos, although roles for mechanical ...

Mechanical regulation of early vertebrate embryogenesis

An ancient theory extending back at least to Aristotle held that a certain class of colour phenomena, such as the rainbow, arises from the modification of light, which appears white in its pristine form. Descartes had generalized this theory for all colours and translated it into mechanical imagery.

Isaac Newton - Career - Encyclopedia Britannica

According to the 1974 edition of the Guinness Book of Records , the Walls of Benin were the "world's largest earthworks carried out prior to the mechanical era." Elsewhere, it is claimed that they were "four times longer than the Great Wall of China and consumed a hundred times more material than the Great Pyramid of Cheops."
