treating everyone the same. In education, this involves giving every student equal access to quality teachers and resources and equal opportunity to achieve. Equity, on the other hand, recognizes that students are different with individual starting points based on background, situation, and context.

Improvement to Address Racial Equity

Health equity is realized when each individual has a fair opportunity to achieve their full health potential. Differences in access, treatment, and outcomes between individuals and across populations that are systemic, avoidable, predictable, and unjust are particularly problematic for quality
