Water-cooling systems equipped with cooling towers consume significant amounts of water due to evaporation and the need for periodic water removal and refresh, so air-cooled chillers should be the preferential choice for water conservation, especially in regions experiencing water scarcity.

HVAC chillers - Air & water cooled chiller systems | Danfoss

Water-cooled chillers typically last longer than air-cooled chillers. Air-cooled chillers may last 20 years while water-cooled chillers may last 23 years or more. This may be attributable to the
