Rivers, canyons, deserts and cityscapes add to the beauty of this multi-day trip through the states of Illinois, Iowa, Nebraska, Colorado, Utah, Nevada and California.

California Zephyr Train | Amtrak
Due to a bug(?) a Zephyr playing as a client will have complete lateral air friction when not sliding, meaning that the player will completely stop moving laterally while in the air as long as a movement button is not held. Trivia. Zephyr's name is derived from Zephyrus, one of the four most important Anemoi in Greek legend. Zephyrus holds domain over the west wind and flowers, and he also serves as a messenger for Aphrodite and Eros.

Zephyr | WARFRAME WIKI | Fandom
Power duration increases Tail Wind's flight distance and makes Turbulence & Tornado last longer. Duration is probably Zephyr's most important stat to mod for, and absolutely essential on any build, but too much duration can make your Tail Wind send you too far (although this can be mitigated; see section 2), causing you to slam into walls.
